Basket	Solid aluminum, welded to the handlebars
Hardware	Stainless steel
Upkeep	Grease the shaft drive twice a year
Warranty	Lifetime frame warranty

THE SWELL BIKE BY BEACH BIKE

Low-maintenance bikes for hotels and rental properties, made for teams whose focus is elsewhere. Tubeless honeycomb tires never go flat, and a fully encased shaft drive takes the place of the chain, so there is nothing to grease, rust or fall off.

Rust resistant: A high-gloss, UV-protected aluminum frame, stainless steel hardware and a solid aluminum basket welded to the handlebars.
